+ (62) 852-8030-4940 | shaneyzoyaf@gmail.com | https://www.linkedin.com/in/shaneyzoya/

Education

Universitas Indonesia, Depok, Indonesia — Aug 2023 - Aug 2027 (Expected)

Bachelor of Information Systems | cGPA: 3.85/4.00

- Served as a Teaching Assistant for Programming Basics 1, Calculus 1, Data Structure and Algorithms, and Database courses.
- Relevant Coursework: Data Structures & Algorithms, Platform-Based Programming, Enterprise Application Architecture & Programming, Database Systems, and Operating Systems

Work Experience

PT Praweda Sarana Informatika, Jakarta, Indonesia — Jan 2025 - Present

Programmer Intern

- Performed systematic debugging and refactoring across the SLP application to resolve functional defects, improve code readability, and enforce clean code principles, resulting in more stable builds and reduced runtime errors.
- Collaborated with the development team to analyze issue root causes, implement fixes, and validate changes through testing before deployment.

PT Indotera Cipta Selaras, Jakarta, Indonesia — Nov 2025 - Present

Full Stack Engineer Intern

- Rebuilt INTACS Indonesia's admin system from ASP.NET Web Forms to modern ASP.NET Core MVC stack, developing fully-functional controllers with complete CRUD operations for business-critical features including client management, user administration, survey systems, flowchart management, and business continuity planning.
- Engineered a production-ready authentication system with secure password hashing (PBKDF2), CSRF protection, and session management, while designing a responsive, modern UI with purple gradient themes and card-based layouts.
- Integrated dual-database architecture connecting legacy SQL Server data with new SQLite local development environment, ensuring smooth data migration and backward compatibility.

Organizational Experience

RISTEK Fakultas Ilmu Komputer UI, Depok, Indonesia — Mar 2026 - Present

Lead of Web Development

- Served as a Lead of Full Stack Engineering in the development of SusunJadwal's Website

RISTEK Fakultas Ilmu Komputer UI, Depok, Indonesia — Mar 2025 - Feb 2026

Member of Web Development

- Acknowledged as the Best Growth in the Web Development team during Q1, showcasing outstanding skills and commitment.
- Handled one external contract project and three internal projects in collaboration with project managers and UI/UX designers, including serving as Person in Charge for PEKRIS 2025 held by RISTEK Fasilkom with responsibility for web development.
- Served as a Front End Engineering Teaching Assistant for SISTECH 2025.

COMPFEST 17, Depok, Indonesia — Jan 2025 - Dec 2025

Vice Person in Charge (PIC) of Software Engineering

- Streamlined and standardized API mapping processes to improve system integration across teams, reducing miscommunication between front-end and back-end workflows and increasing development efficiency.
- Coordinated internal staff operations to ensure clear communication and task alignment and supported the PIC in decision-making and leadership to drive team efficiency.
- Supervised code merging and quality control processes by reviewing integrations, identifying potential issues early, and ensuring deliverables met established technical and quality standards prior to release.

BETIS Fakultas Ilmu Komputer UI, Depok, Indonesia — Nov 2024 - Jun 2025

Web Developer

- Developed and maintained web features for BETIS Fasilkom, ensuring functional reliability, responsive behavior, and smooth interaction across user-facing components to support the student registration process.
- Collaborated with UI/UX designers and internal stakeholders to translate design specifications into well-structured, maintainable code, improving usability and overall system performance.

BETIS Fakultas Ilmu Komputer UI, Depok, Indonesia Jan 2024 - Apr 2024

Quantitative Knowledge Teacher

- Delivered structured quantitative reasoning instruction for BETIS Fasilkom participants, covering problem-solving strategies, mathematical logic, and analytical techniques to support academic readiness.
- Guided students through practice sessions and evaluations by explaining concepts clearly, addressing misconceptions, and reinforcing systematic approaches to quantitative problem solving.

COMPFEST 17, Depok, Indonesia Mar 2024 - Nov 2024

Staff of Visual Design

- Designed visual assets for COMPFEST 16, including Instagram posts, stories, and Twibbon designs, aligned with the event's visual identity.
- Supported UI/UX designers by preparing and adapting visual materials for digital and interface-related use.

Skills

- **Hard Skills:** Proficient in software development, front-end and back-end web development, and API integration; experienced with HTML, CSS, JavaScript, TypeScript, Java, and Python; familiar with React, Next.js, Remix, React Router, NestJS, Hono, Spring Boot, Django, Flutter, and Golang; have working knowledge of SQL, PostgreSQL, Docker, Git, and AWS.
- **Soft Skills:** Leadership, Problem-Solving, Analytical Thinking, Effective Communication, Cross-Functional Collaboration, Time Management, Ownership and Accountability, Adaptability, Attention to Detail, and Teamwork.

Achievements & Certifications

1st Runner Up of Google Developer Groups on Campus Universitas Indonesia Hackathon 2025 May 2025

- Developed the fullstack architecture for Binaguru, an AI-powered platform built during the Google Developer Groups on Campus Universitas Indonesia Hackathon 2025 to help teachers in 3T regions create independent courses through AI-generated modules, assignments, and feedback—contributing to the team's 1st Runner Up achievement.

Best Growth Member in Web Development RISTEK Fakultas Ilmu Komputer UI Jun 2025

- Recognized as Best Growth Member in the Web Development Division of RISTEK Fakultas Ilmu Komputer Universitas Indonesia for demonstrated improvement and contribution.

IELTS Academic — Overall Band Score: 7.5 Jan 2023
